

# AES, Godhead Treatment for Clearing the Central Channel, the Earth Cord and the Antahkarana

[www.ascensionenergysystem.com](http://www.ascensionenergysystem.com)

## Introduction

The best time to use this treatment is after going through the AES, Part I, Treatment Series, the Heart of God Treatment, the Ascentia Treatment, the Christed Halo Treatment, and Experiencing the Heart Torus. It may be that more than one of these Godhead Treatments is necessary for the desired results.

Experiencing these energies and processes in order is much more effective than skipping the preliminary treatments.

One of the most difficult concepts of this treatment is the definitions used. In this paper we will use these terms: Antahkarana, Central Channel, and Earth Cord. In this treatment we will focus on all of these segments individually.

The figure outlining these structures is Michelangelo's David. Please take a look this figure as one of the guides through this treatment.

The symbols on the right side of Michelangelo's David are the female and male Antahkarana Symbols. These ancient symbols have been used to help a person's Antahkarana develop for a long, long time. Additional information is included at the end of this paper.

The point of this treatment is to clear, heal, activate, and develop the Central Channel, Earth Cord, and Antahkarana. This is in preparation for AES II. This facilitates downloading differentiated energies as well as light packets of information, etc... from the Universal Heart (as well as other levels) to a person's heart and then to the Earth Heart. This is all about healing and the ascension into Oneness.

What we want to do in the Godhead Treatment is to enhance the connection with the Earth Heart as well as our own Soul and Monad, perhaps our Twin Flame as well. The Monad is the spark of creation emanating from Source, resulting in our Soul (or Oversoul), and then a Personality or us.

Please take a look at the second figure – Definitions. This may be beneficial. The AES System uses these structures as well as the heart torus as a person progresses through the treatments.

The AES Treatment Series, Part I, was designed especially for helping people clear themselves. In these individual treatments and AES II we get into the heart of the AES System, the ascension process of planet Earth, others, and ourselves.

Keep in mind the problems with terminology. There are various terms used for the structures of a person's energy field; there are different meanings for the terms used to describe components of a person's energy field as well. Try not to get hung up on the terms used. I am convinced humans don't know very much; but we can love. Love can be so much more powerful and rewarding than knowledge.

The third figure is Djwal Khul. Alice Bailey channeled many of Djwal Khul's teachings. Many of these definitions are from these writings. References from Joshua Stone are included in this figure.

Also, for this treatment to be worthwhile, a person does not have to believe the validity of the above terms or concepts. Just give it a try and see what happens.

This treatment is a step in the process for embracing AES, Part II. Without taking this step I don't believe AES II will be effective for most people from my experiences.

Intent is everything: establish the intent to use Godhead for clearing. Often I ask for a treatment simultaneously as I participate in a treatment for another. This can be powerful and rewarding. If I am participating in these treatments I need to develop as well.

Contributing to the common good by treating others can be as exhausting as it is rewarding. Be patient; take it easy. When people work in high vibrational realms it is common to move too fast resulting in loss of health: physically, emotionally, and / or mentally.

### **Godhead Treatment**

Verbal prayers are so much more powerful than silent prayers. Try a prayer such as "I call for this room to be filled with Love and Light and only Love and Light. I call for only the highest good for all to manifest during this treatment. I call on the AES Guides and Metatron to oversee this treatment." (Try calling on your guides, higher aspects of yourself, members of your spiritual family, any Ascended Masters. Feel free to call on any of the Archangels or higher beings you feel comfortable with.)

By visualizing Godhead symbols on the walls, ceiling, and floor, the energy intensifies. Try visualizing Godhead on yourself as well.

Are you familiar with bilocating? For instance, being in two places at once during a treatment? In this treatment as well as others you may experience this phenomenon. Sometimes I work with multiple copies of myself during treatments. This isn't difficult, just establish the intent.

Position the person receiving the Godhead Treatment on the massage table, or make do with what you have. Start by working with the Central Channel. I prefer using a stool, sitting just past the eighth chakra. See a duplicate of yourself just past the bottom of the Earth chakra. Don't be surprised if you see an AES Guide or your Higher Self or the Higher Self of the person on the massage table instead of the bilocated aspect of yourself.

Start visualizing the Godhead Symbol. Channel the Godhead Energy towards the Earth chakra. Just see what happens; it may be a little different for everyone. This is very sacred, be gentle.

As we approach AES II we will begin working with ours and other's Monads. This is when things get even more rewarding. Most people will need to go through significant vibrational shifts to interact directly with a Monad. This is one reason why the AES is such a step by step process. Mary and I have certainly been experiencing this clearing, sometimes to the point of feeling disoriented for a period of time.

Just let the Godhead Symbol / Energy do what it chooses to do, like rotating as it goes from the eighth chakra to earth chakra. This is a cleansing process, preparing the Central Channel to handle higher vibrational energies.

The next step (working with the Earth Cord) is to stand at the end of the massage table and visualize Godhead, channeling the Godhead energy from the Earth chakra towards the Earth Heart. Just see what comes up for everyone participating. See if the Earth opens to you, feel the love and warmth.

This is when we begin working with the Antahkarana. The next hand position is standing between the head and eighth chakra above the head. Visualize Godhead as you channel Godhead energy up towards the Soul and then Monad.

Intent is so important. Remember to breath. Ask for help; we really do so little of the process.

Call on the Soul or Higher Self of the person you are working with for help in being open and for permission to proceed with the treatment. Call on the Monad you are working with. Let the energy flow.

Try visualizing Godhead on all four walls, the ceiling and floor once again. Try saying another prayer silently as not to disturb the person on the table. Call on the AES Guides to assist with the clearing process from the eighth chakra to the Monad.

You will know the Godhead Treatment is complete when you see Godhead symbols flowing down the Antahkarana into the Earth Core. It may take more than one treatment; there is no rush.

Visualize your heart torus as well as the heart torus of the person you are working with. Perhaps the heart tori have merged into one. The inside of the heart torus is zero point energy for co-creating; use this energy to co-create the intended outcome.

If it so happens to work out, spend some time connecting with the person's Soul and Monad, as well as your own. This is an exceptionally special experience when it occurs. An open heart is necessary.

These words understate the beauty and sacredness of this experience. For me it is an expression of grace.

### **Additional Information**

Heart of God is excellent for helping to clear on the Soul and Monad levels. The other Personalities within your Soul or Monad may assist or come for healing themselves. I see these aspects of myself as glowing spherical lights.

Keep in mind a person can self treat very easily with this treatment. Use visualization to work with the Godhead symbol, etc...

Once again, these treatments can be distant treatments. It is the intent that counts. But as a suggestion, always ask for permission.

Participating in a few of these treatments can be life changing. I feel so much gratitude for having experienced this.

Seeing the Godhead symbol flow from the Monad to the Earth Heart is a life changing experience.

## Godhead Treatment Diagram

**Godhead, Clear, Heal, Activate, and Develop the Central Channel, Channel the Energy Between the Eighth Chakra and the Earth Chakra; Bilocate to Facilitate this Clearing**

**Godhead, Clear, Heal, Activate, and Develop the Earth Cord, Channel the Energy from the Earth Chakra to the Earth Heart**

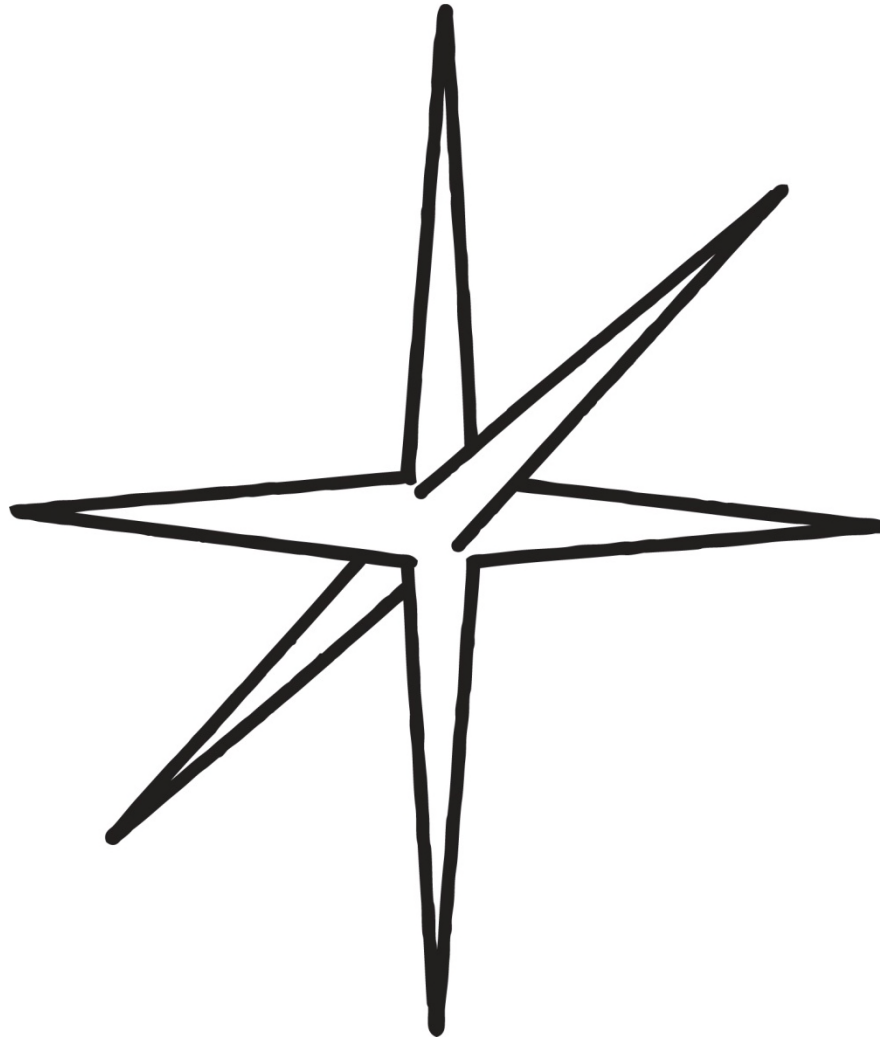

**Godhead, Clear, Heal, Activate, and Develop the Antahkarana, Channel the Energy from the Eighth Chakra Up the Antahkarana**

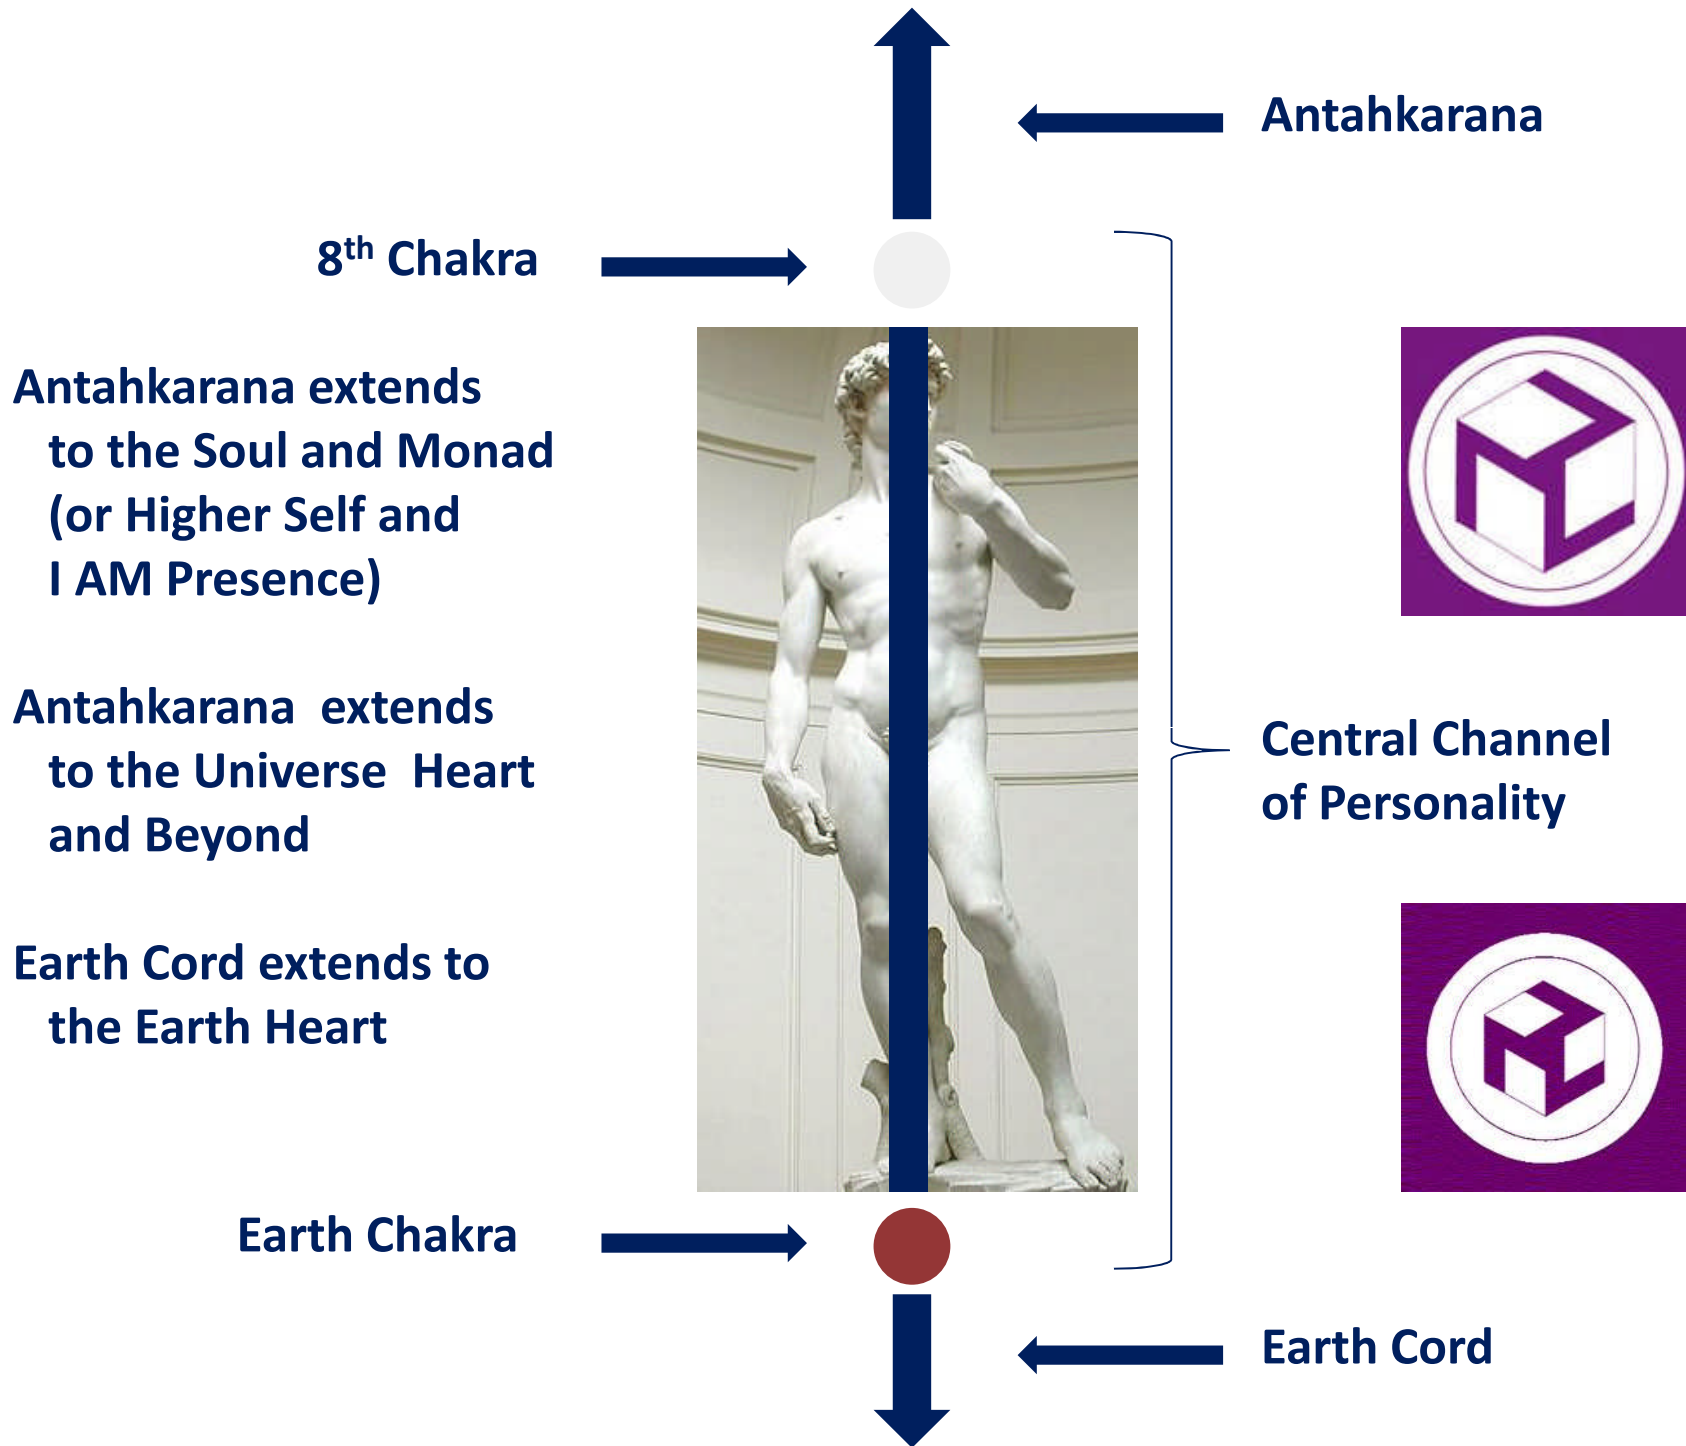

**Spend Some Time at the Head Region Connecting with the Soul and / or Monad of Yourself or the Person on the table, this is Very Sacred**

# Godhead

# Definitions:

- \* **Monad: I AM Presence, Spirit, splits into 12 Souls and then into 144 Personalities**
- \* **Soul: splits into 12 Personalities, six sets of Twin Flames**
- \* **Personality: an individual person like you or me**
- \* **Antahkarana: this is complicated; various definitions; connection between Monad and Personality; also called the Rainbow Bridge; to keep it simple, the ascension process involves building of the Antahkarana from the Personality to the Monad; think I AM Presence merger**
- \* **Djwal Khul or the Tibetan Master, channeled by Alice Bailey, 1920's, 1930's; Joshua Stone simplified teachings (a good reference: The Complete Ascension Manual, 1994, chapters 2 and 5)**

# Djwal Khul, The Tibetan Master

Painted by Marjorie Sharpe, 1960, as Described by Rawdon Sharpe, Her Husband

# ANTAHKARANA - ANCIENT SYMBOL OF HEALING

Alice Bailey, who channeled Djwal Khul (the Tibetan Master), as well as several other authors of Tibetan philosophy, have some knowledge of the Antahkarana which you can find in a number of books. They describe the Antahkarana as a part of the spiritual anatomy. It has been described as the connection between the physical brain and the higher self or Soul, and to the Monad and beyond. It has been stated that this connection must heal and develop if we are to ascend. The Antahkarana symbols depicted, and partially described here, help facilitate this connection.

There are so many descriptions of the Antahkarana it can be confusing. Some authors call this energy field structure the Rainbow Bridge. In many viewpoints the Antahkarana is described as going to the Earth core, this would include the central channel. The concept of the higher self being the Soul can be confusing, and personally, I find this definition way oversimplified; but this is just my opinion.
